Forest of
Blue Village
Besties

Now notice how
I look at it, this village
is suspicious.

This reporter has been here like
there's no other place to be.

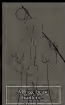

Come to think of it,
most of the villagers
are outsiders here.

How is it that
everyone lives in
such peace?

There's no sign
of any trouble here,
everything's peaceful.

they looked at us with
fierce, snake-like eyes

they looked at us
with those eyes

they are with sharp fangs and snake-like
eyes that glow in the dark.

they have spotted hats and
throw our kind into danger

they laughed at our
mother, refusing us
with those eyes.

Young Master Kaiten is
still paying himself back.

I can't help but
feel nervous about
this place.

The moment I notice
the village of the red
dragons will be the
moment we leave.

Mmm... I hope
you trust your
judgment.

What should I do?

Katouk, you're
already strong so I
think you should save that
power until worse is
the result of it.

Showing off
your ability does
take care of the
attention factor.
But...

Not everything
can be settled
that way, and
it's not always the
best way to do it.

We should always
think before we act
upon the situation.

Information
regarding an ancient
artifact without a
name...

I believe the
others in the
will be able to assist
you with that.

From. By it will
take over 10 months
to reach there.

How about we
use the mystical
Circle?

What's a
Circle?

It's about
two days away
from here.

Is it safe to
keep in touch with
other locations?

I can't quite
explain how it
works...

The computer
holds the Circle
in memory.

It will be easier
for you to spot
(see yourself)

so let us travel
there together

Dickie told me
that the images
were knives...

But I have to make
my own judgement.

Indeed, the mages know about magical artifacts more than anyone else.

After all, they're the custodians of the magical artifacts,

and the most qualified to be chosen as wizards.

The great wizardship schools are open, and accept them every year.

However, they are capable and truly cunning creatures.

So should we continue working alone.

So should we continue working alone, or should we work together?

There are many other magical beings who are also knowledgeable about magical artifacts.

I believe that you should be able to find them.

at that time, all humans had purple eyes.

Let's see now...

I don't know
about it started, but
the Almore population
decreased, and then
became almost
extinct.

The cities they
lived in were either
emptied or occupied
by humans.

Several decades
before the Almore was
extinct, the last city
of Almore disappeared.

The early few
settlers flooded
north to find a home
for themselves.

In this age,
there aren't a lot
of people who know
about Almore.

Almore
never let off.

Why do you think...

Do not try to understand Dragons.

Questioning there is like asking why the Earth, rivers and stars come to be. It is questioning nature itself.

Dragons are not tools.

We only need to focus on the one who holds the dragon pearl, the Rykenas.

Why do you think Rykenas is also known as the owner of the dragon pearl?

For unlike the Dragons, who are unable to control their own power.

THE RYKENAS IS ABLE TO CONTROL IT IN ACCORDANCE TO THEIR FEELINGS AND EMOTIONS!

How could I have
known I was
in a trap?

What a
stupid question.

How could I have
known I was
in a trap?

What a
stupid question.

How could I have
known I was
in a trap?

How could I have
known I was
in a trap?

How could I have
known I was
in a trap?

What a
stupid question.

How could I have
known I was
in a trap?

Just before that,
it was so close - some
new information.

Will the dragon
and his Elymian...

prove to be
of any use?

Are you talking
about "service"?

No, no, right?
Please, please! Don't
be any more like this.

Ah,

... Shall we
not understand of
that reporter while
write at it?

got eaten.
